

# PowderSave-V<sup>®</sup>

## Volumetric screw feeder

**PowderSave-V** is a volumetric screw feeder especially designed to handle free-flowing powders as well as other bulk materials. Filling is quick, accurate and simple to perform – all you need in a screw feeder but with the added value of LIAD's proprietary design and technology.

### Features

- Stainless steel screw powered by brushless DC motor or AC motor
- Screw size and motor type adapted to material properties and required flow rate
- Screw is quick-release for effortless removal and replacement
- Stainless steel agitator powered by AC motor
- Ensures constant and homogenous dispensing of material to the screw
- Available in 10, 30, 50, and 100-liter capacities
- Additional extension hopper option for other capacities
- Each model is designed with a large opening to allow fast and easy filling
- All parts that come into contact with the material are made of stainless steel
